Employment Opportunities for Postdocs at the Procter & Gamble Company

The Procter & Gamble Company is the world’s largest consumer products company and are seeking qualified Postdocs in the following areas to join our Research and Development organization:

- Chemistry (all branches - Analytical, Bioanalytical, Organic, Inorganic, Organometallic, Polymers/Material Science, Physical, Bioinorganic, Biochemistry, Computational Chemistry, etc.)
- Engineering (Chemical, Biomedical, Material Science, Electrical, Computational Engineering)
- Life Sciences (Pharmacology, Toxicology, Molecular/Cellular Biology, Microbiology, Computational Biology)
- Computer Science, Data Science, Modeling & Simulation
- Mathematics and Statistics (Statistics, Biostatistics, Bioinformatics, Applied Mathematics)
- Sensory Sciences (Food Science, Neuroscience, Physiology, Psychology)

The Office of Postdoctoral Studies will be hosting P&G representatives on campus for a Company Information Session from 5 – 6:30 PM on Monday September 11th in Room 1116 Rennebohm (Life Sciences Postdocs) and Room 9341 Chemistry Department (all others). A recent PhD/Postdoc who joined P&G will also share his/her experience going through the job search process and what worked particularly well. If you are interested in learning about P&G and potential employment opportunities, you are welcome to attend one of these sessions (food and beverages will be provided!). A listing of current openings is available at www.pgcareers.com.

You will also have the opportunity to interview with P&G on campus, on September 12th or 13th. If you are interested in being considered for an interview, please scan the QR code below or use this link to submit your resume and a 1-2 page research summary, on or before August 28th. Please contact Dr. Imogen Hurley, Director, Office of Postdoctoral Studies if you need assistance or additional information [Tel: (608) 265-6225; Email: ihurley@wisc.edu].

About P&G: P&G’s annual sales in the past year exceeded $80 billion. It has one of the strongest portfolios of trusted, quality, leadership brands including 22 brands, each with annual sales greater than $1 billion. R&D and innovation are key drivers of P&G’s position as the global industry leader in consumer products. Our R&D organization consists of > 7,500 employees (including ~ 1,100 PhDs) at 13 research centers in 9 countries. The annual R&D budget is ~ $2 billion. P&G offers great pay and benefits and is widely recognized as an excellent company to work for.
